The Exhibitions Program opens the 5th Anniversary 2011-12 Season with an intriguing selection of antique and contemporary outsider and folk art from the collection of Roff and Arlene Graves. Mr. Graves owns/operates Graves Country Gallery in Lodi, CA – one of the nation's premiere art spaces specializing in the genres of folk art. 56 works by over 30 artists are featured in a thoughtful survey of utilitarian, decorative and reclaimed works exploring cultural identity through topics ranging from racism and death to spirituality and labor. This exhibition is sure to stir emotions and curiosity.
